Attendance & Participation: This is an internet course therefore there will not be any classroom meetings. Participation in the discussion posts and completion of all assignments is essential to achieving satisfactory progress, therefore it is the student's responsibility to keep up with regularly checking the course webpage/OC e-mail, and the assigned readings so that proper understanding of the material can occur. Please let me know if you require special accommodations.

Course Assistance: If you need technical assistance with the course you can contact the Student Success Center at 432-335-MORE (6673), visit this link: <http://www.odessa.edu/OCGlobal/blackboard/> or go to the "Tools" tab and click "Blackboard Help." If you have a question about the material you may contact me via e-mail, phone, or visit me in my office (E-mail is the best way to contact me and if I have not responded to you within 24 hours it means I did not receive your message so please resend it); You can also check the course chat room (Go to the "Tools" tab, then click "Collaboration," then "Chat Room") to see if I am, or another student is, in it and ask a question that way as well.

Chapter Info: The Chapter Info tab on the web course will provide the student a downloadable Power Point presentation, outline, and summary for each chapter. This material is supplemental and it is highly advised that a student review the information and complete the readings to gain a better understanding of the material which in essence will make posting to the discussion board and exams easier.

Tests & Final Exam: There will be a total of four tests, with the fourth exam being your final exam. The tests will consist of 50 multiple choice questions valued at two points each. All exams will cover multiple chapters, including the Final Exam which is not comprehensive. It is imperative that students complete reading assignments in order to be better prepared for the exams. I do not drop any test grades. No study guides will be provided and the exams will be taken via Blackboard from any location with internet access. The exam will only be available on one day for a specified time period and you will have 3 hours to take the examination- The exam can only be taken one time and once the time has expired the exam will no longer be available. This is an open-book test and all test questions will come out of the textbook.

Extra Credit: In this age of technology it is imperative that college students master the art of internet research, therefore for every exam up to ten extra credit points can be earned if the student submits to me their opinion on a website they found pertinent to the material in the chapters covered for the exam. DO NOT use websites such as Wikipedia, Dictionary.com, etc.- Actually research a site related to the material. The assignment should include the URL, the date accessed, author and/or organization that maintain the site, and 2-3 sentences on your opinion of the webpage. The extra credit is optional and due dates are posted; only one extra credit assignment can be turned in per exam. The assignment must be at least 100 words in length and submitted via the appropriate Discussion Board thread.

Discussion Posts: The student will be responsible for posting ten original posts on the discussion board for this course (If a resource other than the textbook is utilized, then the post and/or reply needs to be properly cited). Original posts must be at least 250 words in length and should respond to the questions posed for each section. Additionally, all students are required to respond to one of their classmate's original posts, each reply should be at least 100 words in length and cannot simply be "I agree" or "Great comment" statements. When posting/replying, it is ok to disagree with someone's comments (that is what higher education is all about), although please be considerate and polite to your fellow classmates- Rude and derogatory comments will not be tolerated and will result in 0 points for that assignment.

Current Event News Article Review: The student will be responsible for submitting a review on their chosen current event news article pertinent to American Government (Current meaning no more than a month old)- Students should e-mail the instructor to have their current event news article approved (When you submit your article for approval I need the title and link). Current Event news articles are at a "First Come First Serve" basis meaning that no two students can complete their review on the same news article- The review will be at least 600 words. The review will be a brief summary and mainly your opinion of a current event news article chosen by the student, and should include possible solutions and consequences that can occur- It will be graded on topic, content, and grammar. You will post your Current Event News Article review (Properly cited) at the designated discussion post thread. Additionally, all students are required to respond to one of their classmate's posts, each reply should be at least 100 words (Please see comments about replying in the "Discussion Posts" section). Late reviews will be penalized 5% of the final grade for every day that it is late. Below are some items to consider to help your grade:

- 1) Was your review mostly a summary? If it was it should have been mostly your opinion.
- 2) Was your review at least 600 words in length?
- 3) Did you respond to at least one of your classmate's post? If so, was it at least 100 words?
- 4) Did you submit your assignment on time (Remember, 5% for every day it was late)?
- 5) Did you cite your assignment (Link/Title of Article)?
- 6) Did you proofread (How many typos, etc. did your assignment contain)?

Scholastic Dishonesty: Plagiarism and cheating will not be tolerated and will be handled in accordance to the OC Student Code of Conduct/Board Policy Manual. The Professor has the right to, at his discretion, add or alter any assignments, exams, and or methods.
